White Film Products Matte Laser "X" Coated One Side No PSA

| | | |
|---------|--|-----|
| CCXS050 | 2 mil white pet matte laser one side | 54" |
| CCXS051 | Bright White 2 mil laser one side | 54" |
| CCXS075 | 3 mil white pet matte laser one side | 54" |
| CCXS125 | 5 mil white pet matte laser one side | 54" |
| CCXS126 | Bright White 5 mil white pet laser one | 54" |
| CCXS151 | Bright White 6 Mil laser one side | 54" |
| CCXS175 | Bright White 7 mil laser one side | 54" |
| CCXS187 | 7.5 mil matte laser one side | 54" |
| CCXS250 | Bright White 10 mil laser one side | 54" |

Our "X" coating is a digital matte laser. The printability is very good. The scratch resistance is very good. This coating should be used in toner based machines. This coating is compatible with flexo print and off set print.

Of special note is that the "X" coating is compatible with LED printers. A note of caution is that the "IM" coating will perform better in duplex printers where fuser oil can be an issue.

White Film Products Gloss Laser "GL" Coated One Side No PSA

| | | |
|----------|------------------------------------|-----|
| CCGLS050 | 2 mil white pet laser one side | 54" |
| CCGLS051 | Bright White 2 mil laser one side | 54" |
| CCGLS075 | 3 mil white pet laser one side | 54" |
| CCGLS125 | 5 mil white pet laser one side | 54" |
| CCGLS126 | Bright White 5 mil laser one side | 54" |
| CCGLS151 | Bright White 6 Mil laser one side | 54" |
| CCGLS175 | Bright White 7 mil laser one side | 54" |
| CCGLS187 | 7.5 mil laser one side | 54" |
| CCGLS250 | Bright White 10 mil laser one side | 54" |

Our "GL" coating is a gloss laser. It is designed for toner based machines. It is best used when you are simplex printing only. Heavy coverage of toner should be tested. This coating is scratch resistant and adds gloss look to the film. This coating is both flexo printable and off set printable.

White Film Products Matte Laser "X" Coated with PSA and 40# Liner

White Film Products Matte Laser "IM" Coated One Side No PSA

| | | |
|-----------|--|-----|
| CCIMS050 | 2 mil white pet matte digital one side | 54" |
| CCIMS051 | Bright White 2 mil digital one side | 54" |
| CCIMS125 | 5 mil white pet matte digital one side | 54" |
| CCIMS126 | Bright White 5 mil digital one side | 54" |
| CCIMS151 | Bright White 7 mil digital one side | 54" |
| CCIMS175 | Bright White 7 mil digital one side | 54" |
| CCXIMS187 | 7.5 mil matte digital one side | 54" |
| CCIMS250 | Bright White 10 mil digital one side | 54" |

Our "IM" coating is a digital matte laser coating that is cross platform. The toner anhoarge is excellent. This coating should be used for products that may be run on multiple printers such as Xerox IGEN, HP Indigo, Xeikon, and desk top ink jet machines.

Of special note is the "IM" coating has been certified for both HP indigo and Xerox IGEN. This coating soaks up fuser oil very well when duplex printing. A note of caution is the soft coating can be scratched. It is scuff resistant but not scratch resistant. It is not flexo printable.
